### TIPS

This thing is really sweet. You can cut the sugar by around half.

♥ 1082 ⊗

When measuring dry ingredients, such as flour, first stir it in its original container. Use a large spoon to gently fill a dry measuring cup or measuring spoon without shaking or packing. Use a spatula or knife to level it off into a bowl you're not using or back into the original container.

♥ 999 ⊗

Pack brown sugar firmly into a dry measuring cup. Use your fingers or the back of a spoon to press it into the
